## INDEX

| <b>Session I EPIDEMIOLOGY AND CONTROL</b>   | <i>Page</i> |
|---|-------------|
| 1 Laboratory aids in epidemiology and control ... .. .  | 318         |
| 2 Prospects for leprosy control ... .. .  | 318         |
| 3 Primary health care and leprosy control ... .. .  | 318         |
| 4 The epidemiology and some implications of sulphone-resistant leprosy ... .. .   | 318         |
| 5 WHO activities in leprosy from 1973 to 1978 ... .. .  | 319         |
| 6 The use of information in addition to incidence rates in the evaluation of a vaccination trial against leprosy ... .. .                                 | 319         |
| 7 The reason for the reduction of the protective efficacy of BCG in Burma ... .. .  | 319         |
| 8 Value of dapsone as a chemoprophylactic against leprosy ... .. .  | 320         |
| 9 Leprosy in primary health care ... .. .   | 320         |
| 10 Immunogenetic aspects of leprosy. Possible association with genes of the major histocompatibility complex (HLA, Ch, GLO I, PGM <sub>3</sub> ) ... .. . | 320         |
| 11 Evidence to demonstrate HLA-linked control of susceptibility to tuberculoid leprosy. ... .. .  | 321         |
| 12 On the genetics of susceptibility to leprosy ... .. .  | 321         |
| 13 Risks of treating leprosy in a general hospital ... .. .   | 322         |
| 14 Distribution of leprosy in population groups at different risks — Estado Miranda, Venezuela ... .. .   | 322         |
| 15 The Brazilian phase III of prevention ... .. .   | 322         |
| 16 Contribution to the clinical and epidemiological study of leprosy in Iranian children ... .. .   | 323         |
| 17 Perspectives in urban leprosy control ... .. .   | 323         |
| 18 Leprosy survey in industries ... .. .  | 324         |
| 19 Epidemiology of leprosy in South India ... .. .  | 324         |
| 20 History of the official programme of leprosy control in Mexico ... .. .  | 325         |
| 21 New programme of leprosy control, Cuba 1977 ... .. .   | 325         |
| 22 Leprosy control campaign in Somalia. Integration into the National Health Services ... .. .  | 325         |
| 23 Social aspects and epidemiology of leprosy in Sri Lanka ... .. .   | 325         |
| 24 Leprosy in Morocco ... .. .  | 326         |
| 25 Results of five years of integration of leprosy control into the Provincial Health Service of Phuket Island, Southern Thailand ... .. .                | 326         |
| 26 Epidemiometric modelling for leprosy ... .. .  | 326         |
| 27 Evaluation of mass anti-leprosy campaigns in Francophone Africa ... .. .   | 327         |
| 28 Operational classification in Hanseniasis control ... .. .   | 327         |
| 29 Computer usage in Hanseniasis control ... .. .   | 327         |
| 30 The role of arthropods in the transmission of leprosy ... .. .   | 327         |
| 31 Demonstration of dapsone in urine and serum by an enzyme-linked immunosorbent inhibition technique ... .. .  | 328         |
| 32 The prevention of sulphone resistant leprosy ... .. .  | 328         |
| 33 Acedapsone in the prevention of leprosy: field trial in three villages of high leprosy prevalence in Micronesia ... .. .                               | 329         |
| 34 Sulphone-resistant leprosy in Ethiopia ... .. .  | 329         |
| 35 Incidence of hepatitis-B antigen positivity in Korean leprosy patients ... .. .  | 329         |
| 36 Incidence of HBsAg and Ag 'e'/Ac anti- 'e' system in a hospitalized population of patients with Hansen's disease type L ... .. .                       | 330         |
| 37 Hepatitis B virus indicators in leprosy ... .. .   | 330         |
| 38 The e-antigen (HB <sub>e</sub> Ag) in leprosy ... .. .   | 330         |
| 39 Programme of leprosy control in the Dominican Republic (1973-1977) ... .. .  | 331         |
| 40 Past, present and future of leprosy in Nicaragua ... .. .  | 331         |
| 41 Control of leprosy in Morelos, Mexico ... .. .   | 331         |
| 42 Leprosy in the United States (1967-1976) ... .. .  | 332         |
| 43 Leprosy eradication project in Malta — report after 6 years ... .. .   | 332         |
| 44 Leprosy in Greece (1928-1977). An assessment of the main epidemiological characteristics of leprosy in the last 50 years ... .. .                      | 332         |
| 45 Preliminary study of leprosy in Saudi Arabia ... .. .  | 333         |
| 46 School surveys in Bombay ... .. .  | 333         |
| 47 Prevalence rate of leprosy in some urban slums — experience in Bombay ... .. .   | 333         |
| 48 Comparative operational study of two methods of population survey in rural areas of Thailand ... .. .  | 333         |
| 49 Some results from 20 years of leprosy control work in the Mahasarakam Province of North-Eastern Thailand ... .. .                                      | 334         |
| 50 Leprosy in the Karimui: a genetic investigation into its susceptibility ... .. .   | 334         |
| 51 Leprosy in Western Samoa ... .. .  | 335         |
| 52 The present situation in Okinawa Islands ... .. .  | 335         |

**Session II EXPERIMENTAL LEPROSY**

|    |  |     |
|----|--|-----|
| 53 | Quantitative aspects of experimental infection of armadillos with <i>M. leprae</i>   | 337 |
| 54 | Indigenous leprosy in the nine-banded armadillo ( <i>Dasypus novemcinctus</i> )  | 337 |
| 55 | Nude mice for research in leprosy  | 337 |
| 56 | The nude mouse as an experimental lepromatous leprosy model: the enhancing effect of thymus cells in infected nude mice                | 338 |
| 57 | Experimental leprosy in <i>Dasypus sabanicola</i>  | 338 |
| 58 | Experimental leprosy in nine-banded armadillos imported into UK from USA   | 338 |
| 59 | Inoculation of <i>M. leprae</i> into 3 species of autochthonous armadillos in Argentina  | 339 |
| 60 | Study into the susceptibility of armadillos to infection by <i>M. leprae</i>   | 339 |
| 61 | Effect of vaccine from ICRC bacilli against <i>M. leprae</i> infection in mouse footpads   | 339 |
| 62 | Experimental transmission of a feline non-tuberculous mycobacterial skin disease resembling leprosy                                    | 340 |
| 63 | Skin lesions, granulomatous hypersensitivity and cutaneous nerve damage induced by sensory peripheral nerve as antigen                 | 340 |
| 64 | The non-myelin human nerve antigen producing granulomatous hypersensitivity in rabbits   | 341 |
| 65 | Electrophysiological studies of experimental sensory polyneuritis in rabbits   | 341 |
| 66 | Experimental allergic neuritis   | 341 |
| 67 | Nerve damage in leprosy — a quantitative study   | 341 |
| 68 | Infectiousness of human leprosy bacilli in mice  | 342 |
| 69 | Indigenous leprosy in armadillos ( <i>Dasypus novemcinctus</i> )   | 342 |
| 70 | Spontaneous leprosy in a chimpanzee  | 342 |
| 71 | The histopathology of experimental leprosy in the armadillo: <i>Dasypus novemcinctus</i> , Linn., and <i>Dasypus sabanicola</i> , Linn | 343 |
| 72 | Armadillo classification and relation to humans  | 343 |
| 73 | Inoculation of hedgehogs ( <i>Erinaceus europaeus</i> ) with <i>M. leprae</i>  | 344 |
| 74 | Serum glycoprotein studies in armadillos experimentally infected with <i>M. leprae</i>   | 344 |
| 75 | Distribution of pseudocholinesterase types in patients with leprosy  | 344 |
| 76 | Chemotaxis in Virchowian Hanseniasis (lepromatous leprosy)   | 345 |

**Session III CLINICAL ASPECTS**

|     |  |     |
|-----|--|-----|
| 77  | The polar concept: as it stands today  | 347 |
| 78  | Early lesions  | 347 |
| 79  | The Saidapet story. Findings of a nineteen year follow-up of children with untreated leprosy                       | 347 |
| 80  | The spectrum of leprosy — the intermediate zone  | 348 |
| 81  | Reactional episodes  | 348 |
| 82  | Clinical and histological studies of the nose in treated lepromatous leprosy                                       | 348 |
| 83  | Involvement of the respiratory system in leprosy   | 349 |
| 84  | The effect of different therapeutic regimens on the acetylcholine sweat function test (SFT) in tuberculoid leprosy | 349 |
| 85  | Characteristics of dimorphous leprosy in the Dominican Republic  | 349 |
| 86  | The effect of leprosy in mothers on their children before and after birth  | 350 |
| 87  | Tuberculoid relapse in lepromatous leprosy   | 350 |
| 88  | Renal damage in leprosy  | 350 |
| 89  | Inflammatory arthropathy in leprosy  | 350 |
| 90  | The histoid nodules in lepromatous leprosy   | 351 |
| 91  | Leprosy and the Bureau Barrière syndrome   | 351 |
| 92  | Fundamentals of the term "Facies Antonina"   | 351 |
| 93  | Eczema is another important complication of leprosy  | 352 |
| 94  | Ichthyosis in Hansen's disease   | 352 |
| 95  | Occupational allergic eczema in doctors' assistants caused by sulphetron   | 352 |
| 96  | Involvement of the liver in leprosy reactions  | 353 |
| 97  | Arthritis in lepromatous Hansen's disease  | 353 |
| 98  | Squamous cell carcinoma as a complication of plantar ulcer in leprosy  | 354 |
| 99  | A case of leprosy dactylitis of all fingers in borderline leprosy  | 354 |
| 100 | Stable tuberculoid leprosy   | 354 |
| 101 | Stable tuberculoid leprosy   | 355 |
| 102 | Schweninger-Buzzi type of anetoderma in Hanseniasis patients   | 355 |

**Session IV MICROBIOLOGY**

|     |  |     |
|-----|--|-----|
| 103 | Studies on <i>M. leprae</i> from infected armadillos                         | 357 |
| 104 | <i>M. leprae</i> , other mycobacteria and a possible vaccine                 | 357 |
| 105 | Acid-fastness of <i>M. leprae</i> and the problems raised by its cultivation | 357 |

|     |   |     |
|-----|---|-----|
| 106 | Cholesterol, a growth factor for mycobacteria from leprous tissues  | 358 |
| 107 | Neuron invasion gene of <i>M. leprae</i>  | 358 |
| 108 | Evaluation of bacteraemia in leprosy patients   | 359 |
| 109 | <i>M. leprae</i> , a pleomorphic organism with a non-mycobacterial, cultivable, precursor phase   | 359 |
| 110 | Rational chemotherapy of leprosy  | 359 |
| 111 | <i>M. leprae</i> and the diphenoxidase activity   | 360 |
| 112 | Cultivated <i>M. leprae</i> and its antigenic reactions   | 360 |
| 113 | Electroncytochemical study of cytochrome oxidase and peroxidase of <i>M. leprae</i> , <i>M. lepraemurium</i> , <i>M. tuberculosis</i> , <i>M. kansasii</i> and <i>M. balnei</i> | 360 |
| 114 | Examination of North American armadillos for mycobacteriosis  | 361 |
| 115 | Continuous <i>in vitro</i> growth of <i>M. lepraemurium</i>   | 361 |
| 116 | Immunological evaluation of the ICRC bacillus — an <i>in vitro</i> isolate of <i>M. leprae</i>  | 362 |
| 117 | Growth of ICRC bacilli — strain C-44 in footpads of mice  | 362 |
| 118 | New experimental model for leprosy  | 363 |
| 119 | Electron transport and ATP generation in host-grown <i>M. lepraemurium</i>  | 363 |
| 120 | Ultrastructure of lepromatous leprosy — morphological analysis  | 364 |
| 121 | Electron microscope studies of <i>M. leprae</i> during the course of its breakdown in human lepromatous tissue  | 364 |
| 122 | Ultrastructural study of <i>M. leprae</i> obtained from a human leproma   | 364 |
| 123 | The early cellular response to <i>M. leprae</i> — an ultrastructural study  | 365 |
| 124 | Ultrastructural study of the cells in the peritoneal exudate of mice exposed to <i>M. leprae</i>  | 365 |
| 125 | Cultivation of <i>M. leprae</i> from a human skin biopsy  | 365 |
| 126 | Comparative skin test trial with a non-acid-fast organism isolated from leprous tissues to establish its immunological identity with <i>M. leprae</i>                           | 366 |
| 127 | Viability of <i>M. leprae</i> outside the human body  | 366 |
| 128 | Application of periodic acid-carbol pararosanilin stain and periodic acid-methenamine silver stain for staining leprosy bacilli in leprous skin lesions                         | 366 |
| 129 | Demonstration of <i>M. leprae</i> in tissues from bacteriologically negative treated lepromatous leprosy patients   | 367 |
| 130 | Cell-biological studies on the acid-fast organisms isolated and cultivated from leprosy patients  | 367 |
| 131 | Freezing and storage of <i>M. leprae</i> in liquid nitrogen   | 368 |
| 132 | Studies on cell culture of <i>M. leprae</i> and <i>M. lepraemurium</i>  | 368 |
| 133 | Taxonomic features of <i>M. lepraemurium</i> , an obligate intracellular microbe for 69 years   | 368 |
| 134 | Cultivation of <i>M. lepraemurium</i> in flask system   | 369 |
| 135 | Cytochromes of <i>M. lepraemurium</i>   | 369 |
| 136 | Large acid-fast bodies found in leprosy materials   | 369 |
| 137 | Skin adnexa in leprosy and their possible role in dissemination of <i>M. leprae</i>   | 370 |
| 138 | Secondary bacterial infections in chronic trophic ulcers in leprosy   | 370 |

#### Session V IMMUNOLOGY

|     |  |     |
|-----|--|-----|
| 139 | Immunology of leprosy and the WHO special programme  | 372 |
| 140 | A revival of interest in antibody studies in leprosy?  | 372 |
| 141 | Cell-mediated immunity to <i>M. leprae</i> in mice   | 372 |
| 142 | Studies on <i>M. leprae</i> -induced suppression of <i>in vitro</i> responses in leprosy patients  | 373 |
| 143 | Significance of polymorphonuclear activation in reactional lepromatous leprosy. Effects of thalidomide <i>in vivo</i> and <i>in vitro</i>  | 373 |
| 144 | Antigenic analysis of <i>M. leprae</i>   | 374 |
| 145 | Lymphocyte transformation test in healthy leprosy contacts. Influence of household exposure  | 374 |
| 146 | <i>In vitro</i> lymphoproliferative response to <i>Mycobacterium leprae</i> in normal siblings of lepromatous leprosy patients   | 374 |
| 147 | Double blind trial to determine the late reactivity of leprosy patients and unaffected persons to different concentrations of armadillo lepromin in comparison to human lepromin | 375 |
| 148 | Delayed hypersensitivity responses to <i>M. leprae</i> and <i>M. vaccae</i> cytoplasmic protein antigens   | 375 |
| 149 | Various methods of stimulating cell-mediated immunity in cases of lepromatous leprosy: a clinical, bacteriological and histopathological study with immunological control        | 376 |
| 150 | Immunological studies in patients with indeterminate and dimorphous leprosy  | 376 |

|     |  |     |
|-----|--|-----|
| 151 | Characterization in mouse and man of two distinct forms of delayed skin-test response, relevant to mycobacterial infections  | 377 |
| 152 | Attempts to induce delayed type hypersensitivity (DTH) to <i>M. leprae</i> in healthy individuals and in "burnt-out" lepromatous patients  | 377 |
| 153 | Immunological findings in lepromatous leprosy  | 378 |
| 154 | On the assessment of immunological status of lepromatous patients  | 378 |
| 155 | Foetal immunity in leprosy: lymphocyte responses to <i>M. leprae</i> and phytohaemagglutinin in mother and baby at the time of birth   | 378 |
| 156 | Fluorescent leprosy antibody absorption (FLA-ABS) test for detecting subclinical infection with <i>M. leprae</i>   | 379 |
| 157 | Conversion of Mitsuda negative normals into Mitsuda positive through repeated testing with diverse antigens  | 379 |
| 158 | A specific leprosy antigen isolated by affinity chromatography using gel immobilized lepromatous IgG as the stationary phase   | 380 |
| 159 | Immunological studies in guinea pigs and in man on bacteria and cell-free extracts of purified armadillo-derived (PAD) <i>M. leprae</i>  | 380 |
| 160 | MIF response to lepromin, PPD and SK-SD in patients with lepromatous leprosy and healthy individuals   | 380 |
| 161 | Comparative study on skin reactions to <i>M. leprae</i> -lepromin and to ICRCin — an antigen from cultivable acid-fast bacilli from <i>M. leprae</i> isolated from lepromatous modules | 381 |
| 162 | The effect of thalidomide on <i>de novo</i> antibody synthesis   | 381 |
| 163 | The effect of colchicine on serum amyloid A elevation during erythema nodosum leprosum reactions   | 382 |
| 164 | Neutrophil activation in adjuvant disease. Its implications for reactional lepromatous leprosy   | 382 |
| 165 | Humoral and cellular immunity in lepromatous leprosy   | 382 |
| 166 | Immunochemical study of mycobacterial antigens   | 383 |
| 167 | Demonstration of intracytoplasmic <i>M. leprae</i> antigen in the inflammatory exudate of reactional lepromatous leprosy   | 383 |
| 168 | Determination of T and B lymphocytes in patients suffering from different types of leprosy   | 383 |
| 169 | Anti-connective tissue antibodies in leprosy   | 384 |
| 170 | Antibodies reacting with fibroblasts, Schwann cells and connective tissue microfibrils in leprosy  | 384 |
| 171 | Cross-reactions between serum proteins and liver tissue antigens of the nine-banded armadillo ( <i>Dasypus novemcinctus</i> Linn.) and man. The implications for leprosy research      | 385 |
| 172 | Lymphocyte function in progressive <i>M. lepraemurium</i> infection  | 385 |
| 173 | An investigation of mechanisms regulating skin test responsiveness in leprosy patients using soluble <i>M. leprae</i> and <i>M. tuberculosis</i> antigens and a mixture of the two     | 385 |
| 174 | Skin-reactive antigens of <i>M. leprae</i>   | 386 |
| 175 | Study of the immunity, after an interval of 3 years, of leprosy patients having undergone BCG immunotherapy  | 386 |
| 176 | BCG immunotherapy trial in lepromatous leprosy   | 387 |
| 177 | Double blind trial on the effect of certain soluble cytoplasmic mycobacterial antigens on the reactivity to lepromin   | 387 |
| 178 | Protein derivative prepared from <i>M. leprae</i> suspensions maintained in a semi-synthetic medium  | 387 |
| 179 | Mitsuda antigen of animal origin. Absence of Hanseniasis in armadillos living in the natural state; human hypersensitivity to the animal antigen                                       | 388 |
| 180 | Prognostic considerations based on a study of 38 Hanseniasis patients submitted to Mitsuda tests 23 to 35 years previously   | 388 |
| 181 | Results of the lepromin test using human lepromin (H) and armadillo lepromin (A)   | 389 |
| 182 | Dinitrochlorobenzene reactivity throughout the granulomatous spectrum of leprosy   | 389 |
| 183 | Lymphocyte transformation test (LTT) in leprosy patients, in the presence of phytohemagglutinin, lepromin and <i>M. leprae</i> , in culture medium with normal homologous serum        | 389 |
| 184 | Effect of specific vaccine on cell-mediated immunity of armadillos against <i>M. leprae</i>  | 390 |
| 185 | Antigenic evaluation of <i>Mycobacterium vaccae</i> — a mycobacterium possibly related taxonomically to <i>M. leprae</i>   | 390 |
| 186 | FLA-ABS test as a screening test for the detection of cases at an early stage of leprosy   | 391 |

|     |   |     |
|-----|---|-----|
| 187 | Morphological changes in mast cells and levels of serotonin and histamine in leprosy patients   | 391 |
| 188 | Suppressor cells in human leprosy   | 391 |
| 189 | Fluorescent leprosy antibody absorption (FLA-ABS) test for early serodiagnosis of leprosy   | 391 |
| 190 | Micro-technique enzyme-linked immuno-sorbent assay of CIq-reactive circulating immune complexes in leprosy                                    | 392 |
| 191 | Direct and indirect immunofluorescent studies of the lesions, normal skin and sera of leprosy patients  | 392 |
| 192 | Immune complexes in erythema nodosum leprosum   | 393 |
| 193 | Cellular responses in leprosy and related diseases with particular reference to cells of the mononuclear phagocyte series                     | 393 |
| 194 | Auto-antibodies in leprosy  | 393 |
| 195 | Ancestral immunity in the evolution of endemic leprosy in the tropical zones  | 393 |
| 196 | Immunoglobulin concentration in mothers and in healthy controls and their babies at the time of birth   | 394 |
| 197 | A comparative serum profile in leprosy-related and non-leprosy-related families   | 394 |
| 198 | The immunological profile of patients with different types of leprosy resident in a hospital for the treatment of leprosy                     | 394 |
| 199 | Importance of the effect of Levamisole on lymphocytes in household contacts of bacilliferous lepromatous patients                             | 395 |
| 200 | Studies on the anti-inflammatory mechanism of action of thalidomide in leprosy  | 395 |
| 201 | Immunological studies in leprosy patients in leprosy reaction treated with thalidomide  | 396 |
| 202 | <i>In vitro</i> lymphocyte responses in borderline leprosy reactions  | 396 |
| 203 | Antigenic substances of <i>M. lepraemurium</i>  | 397 |
| 204 | Dissociation in mice between delayed type hypersensitivity to a sonic extract of <i>M. lepraemurium</i> (MLM) and resistance to MLM infection | 397 |
| 205 | The role of thymectomy and whole body irradiation on the development of immunity to mycobacterial infections                                  | 397 |
| 206 | Rubino's reaction by microtechnique with sheep and horse erythrocytes   | 397 |

#### Session VI SOCIAL ASPECTS

|     |   |     |
|-----|---|-----|
| 207 | Community factors influencing the leprosy patient and his treatment   | 400 |
| 208 | The methodology of investigating social aspects of leprosy work   | 400 |
| 209 | Non-medical objectives of a leprosy control programme   | 400 |
| 210 | Employment and re-employment  | 401 |
| 211 | World Leprosy Day   | 401 |
| 212 | The several faces of leprosy  | 401 |
| 213 | Stigma and leprosy  | 402 |
| 214 | Leprosy stigma and its effects on patients' self-concept and attitudes towards society                                | 402 |
| 215 | The term <i>leprosy</i> carries prejudice   | 403 |
| 216 | Psychological rehabilitation of leprosy patients using group dynamics   | 403 |
| 217 | The mental state of the patient with leprosy  | 403 |
| 218 | Leprosy: social change and social class   | 403 |
| 219 | Psycho-social change in leprosy in the National Dermatological Centre of Nicaragua                                    | 404 |
| 220 | The social aspects in 1063 cases of leprosy   | 404 |
| 221 | Domiciliary visiting in cases of leprosy  | 404 |
| 222 | Importance of methods of communication in the fight against leprosy. Experiment in the Dominican Republic (1966-1977) | 405 |
| 223 | Social aspects of leprosy in Pará State, Amazon Valley  | 405 |
| 224 | The Leprosy Board of Paraguay — present programme of leprosy control  | 405 |

#### Session VII EXPERIMENTAL CHEMOTHERAPY

|     |   |     |
|-----|---|-----|
| 225 | Pharmacological considerations of drug combinations for the treatment of lepromatous leprosy                            | 408 |
| 226 | Persistence and drug resistance of <i>M. leprae</i> — major obstacles to successful chemotherapy of lepromatous leprosy | 408 |
| 227 | Mechanism of action of clofazimine  | 408 |
| 228 | Tissue levels of dapsone during combined dapsone-rifampin therapy   | 408 |
| 229 | Metabolic disposition of dapsone (DDS) and rifampin (RFM) in nine-banded armadillos ( <i>Dasypus novemcinctus</i> )     | 409 |

|     |  |     |
|-----|--|-----|
| 230 | The activity of dihydrofolate reductase inhibitors against <i>M. leprae</i> infection of the mouse footpad ... ..                        | 409 |
| 231 | An <i>in vitro</i> test for drug response and drug resistance of <i>M. leprae</i> using labelled metabolites ... ..                      | 410 |
| 232 | Mutagenesis-carcinogenesis of antileprosy drugs in animal systems: pertinence to man ... ..  | 410 |
| 233 | Carcinogenic activity of dapsone ... ..  | 410 |
| 234 | The effect of intermittent ethionamide and combinations of ethionamide and dapsone in experimental leprosy in mice ... ..                | 411 |
| 235 | Effect of Sulphetrone treatment on pathological changes of the deep organs of mice infected by passage strain of <i>M. leprae</i> ... .. | 411 |
| 236 | "Mandukaparni" — a common Indian herb effective against leprosy ... ..   | 411 |
| 237 | The activity of combined drugs on <i>M. leprae</i> in mice ... ..  | 412 |

#### Session VIII A CLINICO-PATHOLOGICAL ASPECTS

|     |   |     |
|-----|---|-----|
| 238 | The contribution of histology in the early diagnosis of leprosy ... ..  | 414 |
| 239 | Lucio leprosy ... ..  | 414 |
| 240 | Clinico-pathological aspects of leprosy ... ..  | 415 |
| 241 | A study of proven dapsone-resistant leprosy in Cebu, Philippines... ..  | 415 |
| 242 | Classification of leprosy: three instructive cases ... ..   | 415 |
| 243 | The clinical spectrum of leprosy ... ..   | 416 |
| 244 | Clinical and histological evaluation of 417 suspected cases of Hanseniasis ... ..   | 416 |
| 245 | Evolution of nasal mucosal lesions in leprosy — histopathological study ... ..  | 416 |
| 246 | Primary leprosy involvement of nasal mucosa in apparently healthy household contacts of leprosy patients ... ..   | 417 |
| 247 | Clinical and biochemical aspects of leprosy ... ..  | 417 |
| 248 | 99m TcO <sub>4</sub> brain scan in <i>M. leprae</i> infection ... ..  | 418 |
| 249 | Aetiology of bone changes in the foot in leprosy: a population-based study ... ..   | 418 |
| 250 | Renal dysfunction in leprosy ... ..   | 418 |
| 251 | Lucio's phenomenon in tuberculoid leprosy ... ..  | 418 |
| 252 | Relapse in lepromatous leprosy ... ..   | 419 |
| 253 | Coronary heart disease in leprosy patients ... ..   | 419 |
| 254 | Remnants of leprosy bacilli in deep organs of patients having had lepromatous leprosy, now quiescent — use of improved acid-fast staining method ... .. | 419 |
| 255 | The importance of lipid staining in the classification of leprosy ... ..  | 420 |
| 256 | The phospholipid composition of leucocytes in lepromatous leprosy ... ..  | 420 |
| 257 | Blood sialic acid (N-acetyl neuraminic acid — NANA) levels in cases of leprosy — a diagnostic and therapeutic tool ... ..                               | 420 |
| 258 | Immune complex deposit in Hanseniasis: a percutaneous renal biopsy study ... ..   | 421 |
| 259 | Renal changes in leprosy ... ..   | 421 |
| 260 | Esterase spectrum in epidermal cells and infiltrates in lepromatous skin lesions ... ..   | 421 |
| 261 | Phagocytosis in leprosy. Endocytic ability of peripheral blood leucocytes as measured by its capacity to ingest <i>M. lepraemurium in vitro</i> ... ..  | 422 |
| 262 | PHA skin test in leprosy patients, compared with other delayed type hypersensitivity skin tests ... ..  | 422 |
| 263 | Acro-osteolysis in Hansen's disease ... ..  | 422 |

#### Session VIII B CLINICO-PATHOLOGICAL ASPECTS: NERVE DAMAGE

|     |  |     |
|-----|--|-----|
| 264 | Ultrastructure of beginning and progressive nerve involvement in leprosy patients ... ..   | 425 |
| 265 | Pathological and hæmodynamic bases of nerve decompression ... ..   | 425 |
| 266 | Pathological and immunological basis of medical intervention in leprous neuritis ... ..  | 426 |
| 267 | Nerve damage in leprosy: prospects for study and applications for therapy ... ..   | 426 |
| 268 | Neuritis after intradermal tests with <i>M. leprae</i> in patients with tuberculoid leprosy ... ..   | 426 |
| 269 | Evolution of nerve lesions in leprosy ... ..   | 427 |
| 270 | Assessment of nerve function in leprosy ... ..   | 427 |
| 271 | Motor nerve conduction velocity in leprosy and its correlation with clinical and histological findings ... ..                              | 427 |
| 272 | Involvement of cranial nerves in leprosy with reference to treatment ... ..  | 428 |
| 273 | Symptomatic neuritic leprosy precipitated by rifampicin and isoniazid treatment of tuberculosis, and rifampicin-associated neuritis ... .. | 428 |
| 274 | Electrophysiological evidence for motor-unit impairment during the treatment of leprosy ... ..   | 428 |

|     |  |     |
|-----|--|-----|
| 275 | Peripheral vascular deficit in leprosy and its role in the pathogenesis of neuropathy ...  | 429 |
| 276 | Segmental demyelination in leprosy in the human and the mouse model as assessed by teased fibre technique with electrophysiological correlation ... .. | 429 |
| 277 | Correlations of <i>in vitro</i> electrophysiological, light and electronmicroscopical studies in the neuropathy of leprosy ... ..                      | 430 |
| 278 | Ultrastructural changes in blood vessels of peripheral nerves and of skin in leprosy patients ... ..   | 430 |

### Session IX THERAPY

|     |  |     |
|-----|--|-----|
| 279 | The problem of microbial persistence in leprosy ... ..   | 432 |
| 280 | Therapy of leprosy ... ..  | 432 |
| 281 | Maintenance therapy in non-lepromatous leprosy ... ..  | 432 |
| 282 | The treatment of lepromatous lepra reaction, with special reference to thalidomide ...   | 433 |
| 283 | Results of long-term sulphone therapy for lepromatous leprosy with special reference to renal abnormalities and to the frequency of drug resistance ... ..                                 | 433 |
| 284 | The treatment of sulphone-resistant leprosy ... ..   | 433 |
| 285 | The treatment of reversal reactions ... ..   | 434 |
| 286 | Relapse and dapsone resistance in Morocco ... ..   | 434 |
| 287 | Practical experience with combined therapy in leprosy ... ..   | 434 |
| 288 | Status at ten years of the leprosy patients in the aecedapson (DADDS) trial in the Karimui, New Guinea ... ..  | 435 |
| 289 | Aecedapson in the treatment of 70 lepromatous patients ... ..  | 435 |
| 290 | Rifampicin in the treatment of lepromatous leprosy ... ..  | 436 |
| 291 | Treatment with rifampicin of 5000 leprosy patients in Cuba ... ..  | 436 |
| 292 | Therapeutic effects of adding Rimactane <sup>R</sup> (rifampicin) 450 mg daily or 1200 mg once monthly in a single dose to dapsone 50 mg daily in patients with lepromatous leprosy ... .. | 436 |
| 293 | Short course rifampicin treatment of TT and BT leprosy ... ..  | 437 |
| 294 | Four-weekly 'pulse' therapy with rifampicin in sulphone-resistant lepromatous leprosy — interim report ... ..  | 437 |
| 295 | Results of the treatment of leprosy patients with prothionamide ... ..   | 437 |
| 296 | Diuciphon (Diuciphonum) — experimental and clinical data ... ..  | 438 |
| 297 | The results of immunotherapy of patients with lepromatous leprosy ... ..   | 438 |
| 298 | Histopathologically documented reversal reaction in lepromatous leprosy following treatment with transfer factor. ... ..   | 439 |
| 299 | A placebo-controlled clinical trial of transfer factor in lepromatous leprosy ... ..   | 439 |
| 300 | Leprosy reaction and Levamisol (R 12564) ... ..  | 440 |
| 301 | Pilot trial of short treatment of leprosy by associated chemotherapy and immunotherapy ... ..  | 440 |
| 302 | Study of the action of 2-mercaptopropionil glycine on leprosy ... ..   | 440 |
| 303 | Treatment of lepromatous leprosy with long-acting sulphonamides ... ..   | 440 |
| 304 | Comparative study of five groups of patients: dapsone with another drug ... ..   | 441 |
| 305 | Dimocifon in the treatment of leprosy patients ... ..  | 441 |
| 306 | Therapeutic trial with immunomodulators in Hanseniasis — Levamisol and Tetramisol ..   | 441 |
| 307 | The immunomodulatory action of two drugs given together in bacilliferous lepromatous leprosy ... ..  | 442 |
| 308 | The combination rifampicin-Levamisol in a double-blind trial in the treatment of lepromatous leprosy ... ..  | 442 |
| 309 | A medication monitor for studying compliance with anti-leprosy drug regimens ...   | 443 |
| 310 | The treatment of leprosy neuritis ... ..   | 443 |
| 311 | Comparative assessment of various methods of treatment in leprosy ... ..   | 443 |
| 312 | Sulphone-resistant leprosy: a case communication ... ..  | 444 |
| 313 | Clinical trial of rifampicin in lepromatous leprosy ... ..   | 444 |

### Session X REHABILITATION

|     |  |     |
|-----|--|-----|
| 314 | Planning the rehabilitation of patients with leprosy ... ..                  | 446 |
| 315 | Health education ... ..  | 446 |
| 316 | The role of surgery in leprosy rehabilitation — a general overview ... ..    | 446 |
| 317 | The prevention of disability in patients with leprosy ... ..                 | 447 |
| 318 | Leprosy rehabilitation: a pragmatic approach in a developing country ... ..  | 447 |
| 319 | Medical and socio-economic rehabilitation of leprosy patients in Cuba ... .. | 447 |
| 320 | Social rehabilitation of the patient with leprosy ... ..                     | 448 |

|     |   |     |
|-----|---|-----|
| 321 | The place and importance of surgery in leprosy within a national programme of leprosy control | 448 |
| 322 | Disabilities, displacement and role of reconstructive surgery in leprosy                      | 448 |
| 323 | Twenty years of surgery at the Institut Marchoux at Bamako                                    | 449 |
| 324 | Neuropathic foot in leprosy   | 449 |
| 325 | The protection of anaesthetic limbs of patients living in rural areas in developing countries | 449 |
| 326 | A method for standardizing physiotherapy assessments  | 450 |
| 327 | Hand lesions in Hansen's disease  | 450 |
| 328 | Compression neuropathy of the radial nerve in leprosy   | 450 |
| 329 | Surgical treatment of ulnar nerve paralysis in leprosy  | 451 |
| 330 | Decompression in leprosy neuritis as a therapeutic and preventive measure                     | 451 |
| 331 | Adaptation of decompression methods to the clinical form of neuritis                          | 451 |
| 332 | Nerve surgery in leprosy  | 452 |
| 333 | Neuropathy in leprosy: results of surgical treatment  | 452 |
